Local New Jersey
Police Headquarters
Solves Concrete &
Safety Problems With
DuraQuartz & ENESEAL

Matt Goldberg, of ENECON
MidAtlantic, was called in by a local
New Jersey Police
Department to help them solve some very serious concrete and safety problems at their headquarters facility.

Matt recommended ENECRETE
DuraQuartz and ENESEAL HR for this project and was given the green light to proceed.

The ENECON
Engineering Team
was brought in to
provide a turn-key
solution to the police
department's
problems. The
project turned out
perfectly.

These photos were submitted as evidence.
